

Site operations

Dyer & Butler is the company managing the next package of works from late February 2019 and this is set to last 7 months. The work will involve diverting existing utilities across the Westferry Printworks site, including a new utilities infrastructure in line with the current Planning Permission.

The main operating hours will be from 8am until 5pm Monday to Friday, and there will be the re-introduction of Saturday working hours for this phase of works.

Main operating hours

Monday – Friday: 8:00am – 5:00pm

Saturday: 8:00am – 1:00pm

Keep up to date

Our newsletter is now issued as an online version which can be found at www.westferryprintworks.co.uk/news.

If you wish to receive a paper version or an email version, please contact Vern at westferrye14@themorrisconsultancy.co.uk and include your return address for receipt of future newsletters.

WESTFERRY PRINTWORKS

Welcome to the winter edition of the Westferry Printworks newsletter.

Our newsletter aims to keep you up to date with the redevelopment of the former Westferry Printworks.

Headlines in brief:

- On-site update
- Arnhem Wharf Dig and Cart site visit
- Site operations
- Keep up to date

On-site update

We are continuing with the installation of the piling mat at the lower level, in advance of future basement works on site and have been carrying out surveys of underground utilities in and around the site, including along Millwall Outer Dock tow path, at the Millharbour site entrance and along Westferry Road towards the Docklands Sailing & Watersports Centre. The works will complete mid-February and the tow path will remain open to the public throughout the works.

Henry Construction will be de-mobilising from site during February and this will include the removal of cabins and heavy machinery from site.

Arnhem Wharf Primary School site visit

During a very cold day in November, pupils of Arnhem Wharf Primary School, aged 9 and 10 years old were invited to join us on the Westferry Printworks site for a Dig and Cart project.

The aim of the visit was to give the children a Toolbox Talk explaining the dangers of HGVs and how the lorries are built for a better awareness of pedestrians and cyclists on the roads and pavements.

The project was organised in conjunction with Green Build Environmental Ltd and Henry Construction, who are currently undertaking the works on site and they welcomed 90 children who gathered on the site during the morning in three separate sessions and everyone had a chance to sit in the cab of the HGV with foreman, Chris Dinley, who showed them the workings of the cab.

The children queued patiently in their high viz jackets for their chance to sit in the cab, and even though the weather was bitterly cold the children really enjoyed their visit and as Martin Crick, assistant headteacher said: "The children really enjoyed finding out about the workings of the trucks, and especially sounding the horn!".

We are extremely grateful to Green Build Environmental and to the staff at the School for their help with the visit.

Consultation Surgeries

We have set up Consultation Surgeries on site at the Westferry Printworks development to give residents the opportunity to come and discuss the site activities at the development with us.

The meetings are designed to give you the chance to learn more about the development and also to discuss concerns that you may have in a more focused setting.

The meetings must be booked in advance, and the appointment dates are as follows, with contact details below:

February Dates

- Thursday 21st

Appointments between 08:30 - 12:30

March Dates

- Monday 4th

Appointments between 14:00 - 18:00

- Thursday 21st

Appointments between 08:30 - 12:30

April Dates

- Monday 8th

Appointments between 14:00 - 18:00

- Thursday 25th

Appointments between 08:30 - 12:30

Please contact The Morris Consultancy at westferrye14@themorrisconsultancy.co.uk to arrange an appointment; alternatively please phone to book on 07487 804994. Please note we can only accommodate a maximum of two people per session.
